

LƯƠNG ĐỨC TRỌNG

Junior Frontend Developer

Ho Chi Minh City, Vietnam | (+84) 867 520 049 | luongductrong2004@gmail.com
luongductrong.dev | github.com/luongductrong | linkedin.com/in/luongductrong2004

PROFESSIONAL SUMMARY

Junior Frontend Developer with hands-on experience building and refactoring web applications with React, Next.js, and TypeScript. Experienced in frontend architecture, reusable UI systems, server rendering, API integration, and automated deployment. Also comfortable with Vue.js and Nuxt, with foundational React Native experience. A proactive and fast learner who can work independently, take ownership of existing products, and adapt quickly to new technologies.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript
- **Frontend:** React, Next.js, Vue.js, Nuxt, HTML, CSS
- **Mobile:** React Native
- **UI and State:** Tailwind CSS, shadcn/ui, TanStack Query, Zustand
- **Integration:** REST APIs, Axios, SAP OData
- **Tools:** Git, GitHub Actions, Vite, pnpm
- **Databases:** PostgreSQL, SQLite

PROFESSIONAL EXPERIENCE

Project-based Frontend Developer | FTES Co., Ltd.

Remote

Apr 2025 - Present

FunnyCode Learning Platform - A production e-learning platform for programming courses and guided learning paths.

Live Product: funnycode.vn

- Independently owned and completed a frontend-wide refactor of an existing production product after its initial development by five frontend contributors.
- Upgraded the application from Next.js 14 to Next.js 16 and adopted Partial Prerendering to improve the rendering structure of content-heavy pages.
- Replaced a mixed UI setup with a consistent design system based on shadcn/ui and Tailwind CSS 4.
- Refactored key product areas, including course discovery and learning, authentication and accounts, AI-assisted learning roadmaps, and learner progress.
- Improved server and client rendering boundaries, image delivery, reusable feature modules, and frontend maintainability while keeping the running product stable.

Technologies: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, TanStack Query, Zustand, Axios, Tiptap, Video.js

SAP Intern | FPT Software

Ho Chi Minh City, Vietnam

Jan 2025 - Apr 2025

- Gained practical experience with SAP application architecture, data modeling, and ABAP programming practices.
- Familiarized with enterprise-grade development standards, version control, and team collaboration workflows in an offshore software center.

SELECTED PROJECTS

File Attachment Management Fiori Application | Frontend Technical Owner Graduation Project | Team of 5

Jan 2026 - May 2026

Source Code: github.com/luongductrong/react-fiori-style

- Led the frontend work with one other frontend contributor and made the main architecture, technology, and UI decisions for the team.
- Built about 10 enterprise screens for attachment, business object, user, configuration, and monitoring workflows.
- Developed a Fiori-style React application connected to SAP RAP services through OData v4, including shared API handling, SAP client context, and CSRF token management.
- Implemented role-aware navigation, protected administration areas, file preview and version flows, and Google Drive file selection.
- Created a GitHub Actions deployment workflow for the university's internal SAP environment, reducing manual setup, protecting deployment credentials, and making review and validation easier.

Technologies: React, TypeScript, Vite, SAP UI5 Web Components, Tailwind CSS, React Query, Zustand, Axios, SAP OData v4, GitHub Actions

Game 2048 | Solo Developer Personal Project

Nov 2024 - Aug 2026

Live Demo: ldt.is-a.dev/game-2048/

Source Code: github.com/luongductrong/game-2048

- Built a responsive version of the 2048 puzzle with keyboard and touch controls, undo, persistent high scores, and clear win and game-over states.
- Designed a framework-independent TypeScript game engine and connected it to React through custom hooks and useSyncExternalStore.
- Used stable tile identities and Framer Motion layout animations to create smooth movement and merge effects without duplicating game rules in the UI.
- Configured a pnpm workspace and GitHub Actions deployment to GitHub Pages.

Technologies: React, TypeScript, Vite, Tailwind CSS, Framer Motion, GitHub Actions

Portfolio | Solo Developer Personal Project

Jul 2026 - Present

Live Site: luongductrong.dev

Source Code: github.com/luongductrong/portfolio-v2

- Designed and developed a responsive developer portfolio for presenting selected projects, technical capabilities, and professional information.
- Created a typed project data model and reusable case study components to present different projects through a consistent structure.
- Implemented light and dark themes, responsive navigation, reduced-motion support, and a contact form protected by Cloudflare Turnstile.
- Configured static site generation and automated deployment to GitHub Pages with GitHub Actions.

Technologies: Nuxt, Vue.js, TypeScript, Tailwind CSS, shadcn-nuxt, GitHub Actions

EDUCATION

Bachelor of Information Technology - Software Engineering FPT University, Ho Chi Minh City

2022 - Jun 2026

- Degree classification: **Very Good**
- GPA: **8.11/10**
- Recognized among the **Top 100 students for academic performance** at the Ho Chi Minh City campus in Fall 2025.
